End-to-End e-Learning Solutions Provider

LMS + Course Creation + Course Library + Authoring Tool
Primarily because our LMS is designed in a way that it is ready for your growth. It flaunts a super easy user interface, while rolling out a fully integrated e-learning portal that is power packed with features like social learning, gamification, multi-tenancy, eCommerce integration and more.

**Integrations:** Speaking of integrations, we differ from other vendors in one simple proposition. We go beyond offering mere “APIs” as a means for guaranteeing a smooth integration for you. We make the integration holistic by delving deeper into three integral components of integration.

**Some of our Integrations**
The Most Desired LMS Features

Gamification
- Application of game mechanics in a non-game situation
- Gamifying diverse concepts such as - professional skills training, product training, sales training, compliance and many more.
- Gamification driven by interactive scenarios where learners progress through a series of challenges.

Multi-Tenancy
- Resell your LMS to business partners with their custom branding and control.
- Save on the costs, while your tenants can access their own unique learning content, visible only to themselves.
- Set up tenants, assign groups of users to individual tenants, monitor users activity tenant wide, and manage reporting.

Mobile Learning
- Training delivered in short 'nuggets' rather than large units of information.
- Learners get to use a wide range of media options and that too with ease on their mobile screens.
- Learning becomes personal, fun, interactive, networked, spontaneous, of shorter duration, more connected, to the point and just-in-time.

User Interface
- Simple, clear and consistent UI that inspires confidence and leads to further use.
- Our UI honors usability and user’s attention.
- Readers end up happier, and the results are better.
- Better for both the business side, as well as the people using it.

Interactive Video
- Create and share interactive, web-native video experiences.
- Seamless videos in which the users can interact and choose their own path.
- No coding skills or massive downloads required.
- Drop dead easy interface. Anyone can start creating interactive videos in a flash.
